Under FEHA, existing law imposes duties upon county counsels and county recorders with regard to unlawfully restrictive covenants and Restrictive Covenant Modifications, as specified. This bill would enact the Homeless Person's Bill of Rights and Fairness Act, which would provide that no person's rights, privileges, or access to public services may be denied or abridged because he or she is homeless, has a low income, or suffers from a mental illness or physical disability. The bill would provide that every person in the state, regardless of actual or perceived housing status, income level, mental illness, or physical disability, shall be free from specified forms of discrimination and shall be entitled to certain basic human rights, including the right to be free from discrimination by law enforcement, in the workplace, while seeking or maintaining housing or shelter, and while seeking services. The bill would require local law enforcement agencies to make specified information available to the public and report to the Attorney General on an annual basis with regard to enforcement of local ordinances against homeless persons and compliance with the act, as specified, thereby imposing a state-mandated local program. The bill would provide for judicial relief and impose civil penalties for a violation of the act. This bill contains other related provisions and other existing laws.</p>

AB 12 Cooley D	State government: Administrative Procedure Act: standardized regulatory impact analyses. The Administrative Procedure Act governs the procedures for the adoption, amendment, or repeal of regulations by state agencies and for the review of those regulatory actions by the Office of Administrative Law. Existing law requires each state agency to prepare a standardized regulatory impact analysis, as specified, with respect to the adoption, amendment, or repeal of a major regulation, as defined, that is proposed on or after November 1, 2013. Existing law requires the Department of Finance and the office, from time to time, to review the standardized regulatory impact analyses for adherence to regulations adopted by the department. Existing law also requires the department to prepare a state rail plan, which contains a freight element. Existing law provides for the state and regional agencies to engage in various transportation planning activities, including goods movement planning activities. Existing federal law provides certain incentives to the states for developing a state freight plan consistent with federal guidelines. This bill would require the Business, Transportation and Housing Agency to prepare a state freight plan with specified elements to govern the immediate and long-range planning activities and capital investments of the state with respect to the movement of freight. This bill would require the agency to establish a freight advisory committee with various responsibilities in that regard. The initial state freight plan would be submitted to the Legislature, the Governor, and certain state agencies by December 31, 2014, and updated every 5 years thereafter. 	<p>Among other things, PPACA requires each health insurance issuer that offers health insurance coverage in the individual or group market in a state to accept every employer and individual in the state that applies for that coverage and to renew that coverage at the option of the plan sponsor or the individual. PPACA prohibits a group health plan and a health insurance issuer offering group or individual health insurance coverage from imposing any preexisting condition exclusion with respect to that plan or coverage. PPACA allows the premium rate charge by a health insurance issuer offering small group or individual coverage to vary only by family composition, rating area, age, and tobacco use, as specified, and prohibits discrimination against individuals based on health status. This bill would state the intent of the Legislature to enact legislation that would reform the individual health care coverage market consistent with the PPACA. AB 31 Pan D	Stabilization and marketing plan for market milk. Existing law empowers the Secretary of Food and Agriculture to formulate stabilization and marketing plans that establish the prices to be paid by milk handlers for specified classes of market milk. Existing law requires the secretary to take relevant economic factors into consideration in establishing the price to be paid for class 4b market milk, which comprises all market milk, market skim milk, or market cream used in the manufacture of cheese other than cottage cheese. This bill would provide a specific formula that the secretary would be required to use to establish the price for class 4b market milk that includes a dry whey value factor that is no less than 80 percent of the dry whey value used in federal milk marketing orders in establishing minimum producer prices. The bill would authorize each handler's milk plant that purchases class 4b market milk to deduct a dry whey credit, as specified. AB 37 Perea D	Environmental quality: California Environmental Quality Act: record of proceedings. The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of, an environmental impact report (EIR) on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA establishes a procedure for the preparation and certification of the record of proceedings upon the filing of an action or proceeding challenging a lead agency's action on the grounds of noncompliance with CEQA. This bill would require, until January 1, 2017, the lead agency, at the request of a project	Introduced: 12/3/2012 pdf html	1/14/2013 - Referred to Com. on NAT. RES.	1/14/2013 A . NAT. RES.

Existing law also establishes the California Healthy Food Financing Initiative for the purpose of promoting healthy food access in the state. This bill would express the intent of the Legislature to enact legislation that would establish the California Food, Farms, and Jobs Act, for the purpose of improving state programs that support local and regional farm and food system infrastructure, expanding access to healthy foods for consumers, and creating new job growth and economic development through increasing the number of direct and retail markets. AB 177 V. Manuel Pérez D	Renewable energy. Under existing law, the Public Utilities Commission (PUC) has regulatory authority over public utilities, including electrical corporations, as defined. The Public Utilities Act requires the PUC, in consultation with the Independent System Operator (ISO), to establish resource adequacy requirements for all load-serving entities, as defined, in accordance with specified objectives. The definition of a "load-serving entity" includes an electrical corporation. That law further requires each load-serving entity to maintain physical generating capacity adequate to meet its load requirements, including peak demand and planning and operating reserves, deliverable to locations and at times as may be necessary to provide reliable electric service. This bill would state the policy of the state to require all retail sellers of electricity, including investor and publicly owned utilities, to procure new demand-side and clean energy generation to achieve greenhouse gas emissions reduction, resource adequacy, and renewable goals simultaneously in the most cost-effective manner practicable. The act imposes civil penalties upon persons who violate those prohibitions, and provides for the enforcement of those prohibitions by the Attorney General, a district attorney, or specified city attorneys or prosecutors, and by any person in the public interest. The act requires any person bringing an action in the public interest, or any private person filing an action in which a violation of the act is alleged, to notify the Attorney General, the district attorney, city attorney, or prosecutor in whose jurisdiction the violation is alleged to have occurred, and the alleged violator that such an action has been filed. This bill would allow a person who receives a notice that alleges the person is in violation of the warning requirements of Proposition 65 to correct the violation within 14 days after receiving that notice and demonstrate to the Attorney General, the city attorney, or the district attorney in whose jurisdiction the notice is filed that the violation has been corrected. The bill would prohibit an enforcement action from being commenced if the Attorney General, the city attorney, or the district attorney concurs that the violation has been corrected. This bill would add to that list of acts an act representing a product as made in California, by using a specified Made in California label, unless the product complies with standards adopted by the Governor's Office of Business and Economic Development, to the extent those standards are adopted. The bill would establish the Made in California Program within the office, as provided, and would create the Made in California Fund as a special fund in the State Treasury, which, upon an appropriation of those funds by the Legislature, would be available for that purpose. The bill would require the office to report to the Legislature on January 1, 2015, and annually thereafter, regarding expenditures and progress of the program. Existing federal law, the federal Patient Protection and Affordable Care Act (PPACA) enacts various health care coverage market reforms that take effect January 1, 2014. PPACA prohibits a group health plan and a health insurance issuer offering group or individual health insurance coverage from imposing any preexisting condition exclusion with respect to that plan or coverage. PPACA allows the premium rate charge by a health insurance issuer offering small group or individual coverage to vary only by family composition, rating area, age, and tobacco use, as specified, and prohibits discrimination against individuals based on health status. SB 25 Steinberg D	Agricultural labor relations: contract dispute resolution. Existing law specifies the time for filing a declaration by an agricultural employer or a certified labor organization representing agricultural employees that the parties have failed to reach a collective bargaining agreement, thus triggering mandatory mediation. Under existing law, the declaration may be filed 90 days after a renewed demand to bargain where the parties have failed to reach agreement for at least one year, the employer committed an unfair labor practice, and the parties have not previously had a binding contract between them or 180 days after an initial request to bargain. This bill would permit the filing of a declaration without having to meet the prior bargaining and time requirements and would expand the definition of an agricultural employer to include subsequent purchasers of an agricultural employer's business where the original employer had an obligation to bargain with its workers. This bill would provide that the board is also responsible for assisting the Governor in the alignment of the education and workforce investment systems to the needs of the 21st century workforce and the promotion and development of a well-educated and highly skilled 21st century economy and workforce. This bill would require the board to assist the Governor in targeting resources to specified industry clusters that provide economic security and leverage state and federal funds to ensure that resources are invested in activities that meet the needs of specified industry sectors and advance the education and employment of students and workers so they can meet the specified needs of the state, its regional economies, and leading industry sectors. SB 189 Monning D	Health care coverage: wellness programs. Existing federal law, the federal Patient Protection and Affordable Care Act (PPACA), enacts various health care coverage market reforms that take effect January 1, 2014. Among other things, PPACA allows the premium rate charged by a health insurance issuer offering small group or individual coverage to vary only by family composition, rating area, age, and tobacco use, as specified, and prohibits discrimination against individuals based on health status, as specified. PPACA prohibits a health insurance issuer from requiring any individual to pay a premium or contribution that is greater than the premium or contribution paid by a similarly situated individual on the basis of any health status-related factor and prohibits construing this provision to prevent a group health insurance issuer from establishing premium discounts or rebates or modifying copayments or deductibles in return for adherence to wellness programs, as specified. This bill, until January 1, 2020, would prohibit a health care service plan or health insurer from offering a wellness program in connection with a group health care service plan contract or group health insurance policy, or offering an incentive or reward under a group health care service plan contract or group health insurance policy, based on adherence to a wellness program, unless specified requirements are satisfied. SB 204 Corbett D	Prescription drugs: labeling. The Pharmacy Law provides for the licensure and regulation of pharmacists by the California State Board of Pharmacy. Existing law prohibits a pharmacist from dispensing any prescription unless it is in a specified container that is correctly labeled to include, among other information, the directions for the use of the drug. A violation of the Pharmacy Law is a crime. This bill would require a pharmacist to use translations of the directions for use in non-English languages published on the board's Internet Web site, as applicable, when labeling a prescription container. The bill would authorize a pharmacist to translate the directions for use into additional non-English languages if certified translation services are utilized to complete the additional translations. The tax would be administered by the Department of Conservation and would be collected pursuant to the procedures set forth in the Fee Collection Procedures Law. The bill would require the department to deposit all tax revenues, penalties, and interest collected pursuant to these provisions into the Oil Severance Fund, a continuously appropriated fund created by this bill, for allocation to the Regents of the University of California, the Trustees of the California State University, the Board of Governors of the California Community Colleges, and the Department of Parks and Recreation, as provided.
