Projected Fire Activity

Strong NE winds pushed the fire to the South and Southwest overnight. The NE winds will continue through the morning and decrease in strength into the afternoon. The fire will continue to burn in drainages to North and Northeast . The fire continues to burn to the Northwest into Magalia and toward Stirling City. Extremely dry fuels and heavy fuel loads in combination with low relative humidity will continue to produce active fire behavior and impede control efforts. (1)

The fire burned through the Town of Paradise and Concow Thursday, these areas will continue to experience active burning throughout the day. Overnight the fire burned to the Southwest toward the City of Chico and Butte Creek Canyon and South towards Highway 99 and 149. (1)

The fire has crossed Highway 70 near Pulga and will continue to burn to the East and Southeast toward Yankee Hill. (1)
