

# CRV Changes Coming

---

- **Wine and distilled spirits** enter the CRV program starting January 1, 2024
- Retailers will need to update **shelf tags by January 1, 2024** to indicate that wine and spirits are included in CRV recycling
- Consider **notifying customers about the CRV charge** on wine and spirits that starts on January 1, 2024 with in-store signage
- However, this change requires bottles and product **containers to be labeled "recyclable"** by July 1, 2025
- Grocers will no longer have an **"in lieu"** option starting January 1, 2025. Stores will choose to either participate in a **dealer cooperative**, or have a **designated area** other than the cash register anywhere at the store for **in-store take-back**
